

# Urethane Spiral Return

**Urethane Spiral Return** directs carryback material away from the conveyor, resisting abrasion and combating corrosion. Urethane's non-stick properties minimize material buildup, reducing belt tracking issues. Suitable to work with mechanical belt fasteners, offering a versatile solution for efficient conveyor operation.

**REMOVE CARRYBACK  
MATERIAL**

**REDUCE BELT  
TRACKING ISSUES**

**ABRASION  
RESISTANCE**

**CORROSION  
RESISTANCE**

## FEATURES

- 6.5" outside diameter
- 90 durometer urethane
- 4" diameter roller core
- CEMA C, D and E rolls available
- 18" - 96" belt widths available
- Sealed-for-life bearing with Martin's proven seal performance

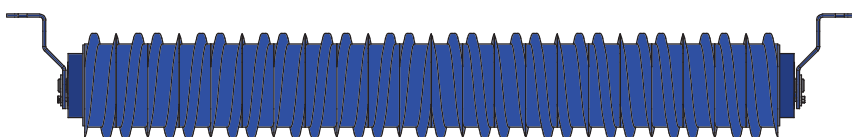

## PART NUMBER EXAMPLES:

Roll only:

**C 6.5 - USR - 36**

Roll with 4½" drop brackets:

**C 6.5 - USR - 36 - 4**

**FRONT VIEW**
